The Parents/Carers of Students in Year 10

Dear Parent/Carer

Drive Alive - Friday 14 October 2016

On Friday 14 October 2016 we would like all students currently in Year 10 to take part in a road safety initiative called Drive Alive. The day will be run by NYCC's Road Safety Team and will include a series of presentations covering driving related issues such as speed, distraction (mobile phones), seatbelts, drink-drug driving etc.

The day will also include a talk from a visitor called Brooke Trotter who has received brain damage following a road traffic accident and also from Mr and Mrs Warins who lost their child as a result of a road traffic accident.

Whilst we appreciate that students in year 10 will not have started driving yet, we believe that educating them on issues surrounding driving and passenger safety would be beneficial to the students at our school. They may also be passengers of young drivers and may have the chance to influence their behaviour.

We would like to point out that there may be upsetting/sensitive information shared on this day and if you feel your child may be affected by this please do not hesitate to contact me at the school prior to the 14 October 2016.

Yours faithfully

Lucy Wilson
PSHE Co-ordinator
