

GPS ALUMINI – Sam Lindley – Maths Teacher

Head Boy 2010 - 2011

My favourite subject has always been Maths and at George Pindar School I had a young and inspiring teacher, Mr Francis, who was a really great example. I also enjoyed the excellent sporting facilities at G.P.S and during my final year I obtained, through school a basketball coaching award which I have made use of in training sessions with Scarborough Seahawks Clubs and I have also captained York University Basketball team many times.

During Year 11 at G.P.S I was lucky enough to travel to Tanzania with 8 other students on a 3 week trip which primarily involved the restoration of a local school. This was an amazing experience of life in Africa, witnessing a completely different lifestyle and the exciting opportunity to travel on a safari.

I obtained my Duke of Edinburgh Bronze and Silver Award during my time at George Pindar School, later on completing my Gold Award at Scarborough Sixth Form College.

When I left school I chose to move on to Scarborough Sixth Form College to continue my studies and gain A Levels in Mathematics, Further Maths and German, after 2 years I applied and got a place at York university to focus on Maths.

Having obtained a BSC degree in Mathematics in June 2016, I completed a PGCE (Masters) year at York University. Having qualified as a Maths teacher in the Summer of 2017 I start work as a Teacher of Maths in Cambridge in September 2017.
